In the event of a registration of the above noted domain by a third party, the UDRP may be applied under the following conditions:

- (i) Circumstances indicating that the domain name registered or acquired the domain name primarily for the purpose of selling, renting, or otherwise transferring the domain name registration to the complainant who is the owner of the trademark or service mark or a competitor of the complainant, for valuable consideration in excess of your documented out-of-pocket costs directly related to the domain name; or
- (ii) The domain name has been registered in order to prevent the owner of the trademark or service mark from reflecting the mark in a corresponding domain name, provided that you have engaged in pattern of such conduct; or
- (iii) the domain name has been registered primarily for the purpose of disrupting the business of a competitor; or (iv) by using the domain name, registrant has intentionally attempted to attract, for commercial gain, Internet users to their web site or other on-line location, by creating a likelihood of confusion with the complainant's mark as to the source, sponsorship, affiliation, or endorsement of your web site or location or of a product or service of a web site or location.

In addition to remedies provided for by the UDRP, Section 4a (1)(2)(3) & b (1) (2) (3) (4) existing registrants, trademark and service mark owners are provided by ISN with **preference** on domain names that are identical with new TLD extensions, or domain names that are confusingly similar to their own.
