## TRADEMARK MONITORING SERVICE

[REDACTED]

ATTENTION TRADEMARK OWNER

Protecting a trademark from confusingly similar names is the responsibility of the OWNER and NOT the USPTO (US Patent and Trademark Office)

Approximately 5,000 trademark applications are filed each week. Trademark Safeguard uses a proprietary search engine that will monitor the thousands of trademark filings. If a potential infringing match occurs, you will be **notified via email** with details and contact information on the match. This will give you the immediate opportunity to start the opposition process on any trademark that can possibly infringe on your rights. Trademark Safeguard is a yearly service consisting of **weekly email reports** which begin when we receive this form.

**PLEASE NOTE:** Trademark Act §1063 "OPPOSITION TO REGISTRATION" states in part *"Any person who believes that he would be damaged by the registration of a mark upon the principal register, including as a result of dilution under section 43(c), may, upon payment of the prescribed fee, file an opposition in the Patent and Trademark Office, stating the grounds therefor, within thirty days after the publication under subsection (a) of section 12 of this Act of the mark sought to be registered."* THE US PATENT AND TRADEMARK OFFICE HAS ALLOWED CONFUSINGLY SIMILAR NAMES TO BE REGISTERED.

Besides monitoring for confusingly similar trademarks, Trademark Safeguard will watch for domain name registrations in the .com, .net, .biz, .org, and .info domain name zone databases for cyber-squatters. You will be notified in the weekly email report of conflicting domain name registrations - and be able to generate a trademark or domain name violation form letter from the Trademark Safeguard reporting system.

Trademark Safeguard is a non-governmental entity which acts as an electronic safeguard for your brand. The responsibility for trademark monitoring lies with the Trademark owner, and NOT the government or the US Patent and Trademark Office. To enable monitoring of your mark listed above, please return the form below with payment to the address listed above. We have included a return envelope for your convenience.

Trademark Monitoring is neither a legal requirement, nor a mandatory service. Trademark Safeguard is a privately owned entity that is not affiliated with the US Government in any way. Trademark Safeguard will notify you of confusingly similar marks and domain names, but the responsibility is absolutely in the trademark owner's hands. Reversal of a trademark registration may require legal action from the trademark owner. Information submitted to us is exclusively for internal use and isn't sold or distributed in any form. Your payment of the foregoing fee is your agreement to be bound by the terms and conditions set forth on the reverse side of this form.
